Letter of recommendation

To whom it may concern,

I am extremely pleased me to write this letter of recommendation for Mahdi Kchaou.

I had been his, "Management and Decision Sciences" professor during the academic years 2019-2022.

I have communicated closely with him and have developed a great deal of respect for this remarkable person.

During his studies, Mahdi has repeatedly distinguished himself with an outstanding academic record. He possesses the right combination of drive, intelligence and interpersonal skills required to excel in school and professional career.

Mahdi is a careful and creative thinker with an eye for details and devotion to logic, which serves him well both in management and operations.

He is extremely a personable and responsible young man who is equally comfortable with his peers and his professors.

I, therefore, recommend Mahdi for his application and I have no doubt that he would be a tremendous asset to your institution and meet your highest expectations.
